

Case Study

BYFORD DISTRICTS COUNTRY CLUB

September 2017

Byford Districts Country Club (BDCC) approached Media 365 to create a new website and custom-built membership portal.

March 2018

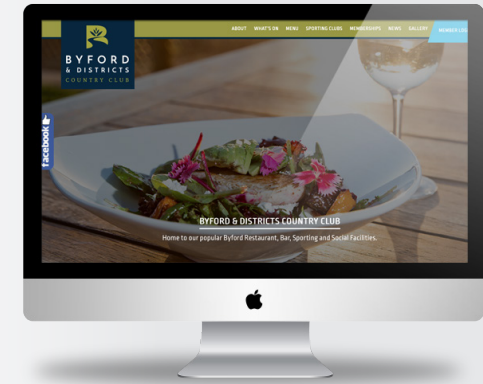

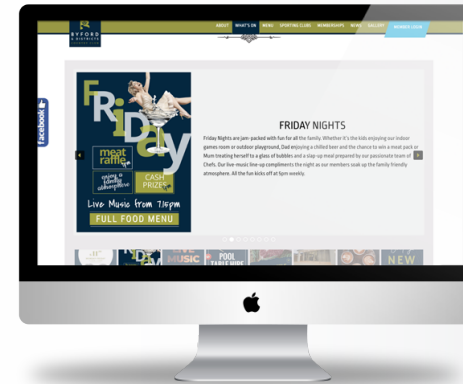

www.bdcclub.com.au goes live with fully functional membership platform for 8,000 member database. Media 365 Customised Membership Platform allows each member secure online access to pay fees, book restaurant, events and sporting facilities, check and redeem loyalty reward points etc.

July 2020

BDCC Membership has grown to 18,000 members.

September 2020

Media 365 sourced, programmed new members sign-in consoles - which allow for paperless sign-in process and member guest registration fully compliant with WA Liquor License regulations etc. The new process also provides important data on fill factor limits etc.

“Over the past 4 years, we have developed our website, membership portal and sign-in procedure with the professional guidance and assistance of Bruce, Harish and their team. Always on hand to offer realistic and affordable solutions, their collective experience and knowledge are an invaluable asset.

As a fast-paced hospitality venue, it is often essential that we change with our members needs with little notice and Media 365 always fully support us in that endeavour. Their dedication and turnaround time on projects is exceptional.

We look forward to developing our future projects alongside our chosen IT partners, Media 365.”

~ Ray Carey, Commercial Operations Manager, BDCC
